I (print name) _____, authorize **On The Go Dry Cleaners** to charge the above credit card for services provided.

On The Go Dry Cleaners will provide a statement of charges with each delivery.

Signature _____ Date _____

Please select starch option for business shirts:

None **Light** **Medium** **Heavy**

On The Go Dry Cleaners

GENERAL RELEASE

WE ASSUME NO RESPONSIBILITY FOR ARTICLES LEFT OVER 30 DAYS

We always use the utmost care possible in the cleaning of your garments and household goods, but due to variations in materials, fabrics, and dyes used to manufacture these products, we require your authorization before we can proceed.

In addition, we claim no responsibility for trimmings, buckles, beads, buttons, belts and sequins.

We also cannot guarantee against color loss and shrinkage; or damage to weak or tender fabrics.

Any differences in count must be reported, and receipt presented, within 48 hours. Unless a list accompanied the bundle, our count must be accepted.

The company's liability with respect to any lost article shall not exceed 10 times our charge for processing it.

SUEDE & LEATHER RELEASE

Suede and leather, because they are made of animal skins, sometimes have natural defects that may not show up prior to cleaning.

In addition to normal wear, the following are certain conditions that we must bring to your attention:

- (1) Certain areas of the animal skin may have weak or thin spots that may chafe during the cleaning process.
- (2) Previous exposure to moisture and heat may cause the skin to become stiff, tender, or brittle.
- (3) Some skins, even after dying, may still show faded areas.
- (4) As in other fabrics, we may not be able to remove all stains.
- (5) Uniform color can not be guaranteed if the skins were not matched evenly at the manufacturer.
- (6) Heavily soiled linings may be difficult to clean completely.

WETCLEANING REQUIRED

Occasionally certain stains or soils cannot be removed in the dry cleaning procedure. When this happens the garment should be "wet cleaned".

During this procedure we use the utmost professional care to insure that there will be no shrinkage, color loss or distortion of the fabric. However in spite of the precautions that we take, some fabrics still may shrink or distort while others may have been dyed with non-fast colors. Therefore we require your signature for acceptance for the above conditions.

SILK & SATIN GARMENT RELEASE

Silk and satin garments occasionally have weaknesses that are not always apparent prior to dry cleaning. Even with the utmost care we give to these fabrics, some color loss or discoloration may occur if the garment was poorly dyed at the manufacturer.

Due to the fine denier used in most silk it has a natural tendency to shift. Because of this shifting, some splitting and/or discoloration may result, especially in certain areas such as elbow, underarm, collar, waist and seat.

In addition, some foods, beverages, and cosmetics may also cause splitting or leave permanent stains, or color change. Exposure to sunlight may also cause some color loss.

Silks and satins are extremely fragile. Therefore, in time, besides the possible splitting, shifting, discoloration and loss of luster, some piling may occur.

I have read the above statements and understand that you will process my garments with the utmost care. However I am aware of all hazards and therefore release you from all responsibility.
